

24 October 1952

Prof. G. A. Hedlund
Department of Mathematics
Yale University
New Haven, Connecticut

Dear Prof. Hedlund:

As you may have heard we are considering having our Symposium in California again next summer, and we hope you will be able to participate. We are now making plans and preparations for the coming year, and would like to have your advice and cooperation. Could you come to Washington sometime in the near future to discuss these matters?

Cairns will be here sometime soon, the date yet to be determined, and it would be good if you could be here at the same time. I will let you know by letter or phone of the exact time.

In order to pay your travel and reimburse you for your time it will be necessary to protect the taxpayer with some forms. The one enclosed will enable us to start action. An extra is enclosed for your retention.

I hope this trip will be possible without interfering excessively with your duties at Yale. It was my intention to make a trip to see you, but since Cairns is going to come, it seems better to have our discussions here.

Sincerely,

H. H. CAMPAIGNE
Chief, Mathematical Research Division
