1. The Air Force requested by letter, same Subject, dated 28 July 1959, Serial No. 88907999, that this Agency assume industrial security responsibility for Project 466L. The request was approved and this Agency has been exercising the required security controls.

Declassified and approved for release by NSA on  
 10-24-2013 pursuant to E.O. 13526

M/R: On 27 Dec 60, the Director, NSA, advised that he does not desire to be responsible for the security of COMINT procurements awarded for activities other than NSA. Further, that SEC take action to transfer security responsibility for Project 466L to the Air Force. A meeting was held with representatives of AFCEIN on 6 Jan 61 to attempt to program a schedule of transition. This was impossible because it was not known what Gen Walsh's reaction would be or how the Air Force would continue the program. The AFCEIN officials requested that NSA prepare a letter to officially notify the Air Force of the pending transfer of responsibility. This letter was written to fulfill the Air Force request.
