~~TOP SECRET CANOE - SECURITY INFORMATION~~DRAFT OF PROPOSED ANNEXURE O1 TO DRAFT APPENDIX QU. S. AUGMENTATION OF GCHQ

1. Although the augmentation program set forth in Appendix Q applies in particular to a wartime situation, it is considered that at least two stages are involved in the effective implementation of the provisions of this appendix. These stages are defined here as:

a. Peacetime Augmentation Program - to be effective up to the day of full mobilization.

EO 3.3(h)(2)
PL 86-36/50 USC 3605

b. Wartime combined effort at full scale.

2. During peacetime, a combined NSA-GCHQ effort may be established on specific problems, as agreed between USCIB and LSIB. Arrangements for combined efforts will be made for those problems which under existing conditions can be most effectively processed All such arrangements are subject to change by either party if it is felt that the establishment of additional national or combined centers, or changes in communications or processing facilities permit more effective processing at some other location, on a national or combined basis. The peacetime augmentation program will be periodically reviewed and any additional increases will be agreed upon between USCIB and LSIB.

3. For the purposes of this proposal, no attempt is made to present detailed phasing in the implementation of either of these stages. The proposal does, however, include considerations of the following major points.

8. Priorities Planning. Provision will be made to participation by representatives of each of the departments and agencies authorized to receive products those elements of the CCE where priorities of processing are finally planned.

9. Organization of the CCE. Under the provisions of Appendix Q, it is envisioned that the wartime effort on the tasks assigned will be the product of a fully integrated and combined operation located in the UK. The size of the operation will be such as to require extensive formal organization. The principle features of the proposed organization are as follows:

a. The combined effort will be under the supervision of a Director appointed by agreement of Director, NSA, and Director, GCHQ. He will have as principal assistant a Deputy, similarly appointed.
