Mr. A. B. Clark
Bell Laboratories
463 West Street
New York, New York

Dear Mr. Clark:

On my last visit to the Laboratories, in conversation with Dr. Stebbitz, he mentioned a Dr. John Rajchman who is working with RCA in the electronics field and had developed an interesting gadget. Stebbitz thought that we might be interested in this man and I had a personnel questionnaire sent to him in care of Dr. Zworykin, but possibly the letter went astray because we have not received a reply.

Would you please ask Stebbitz to give me a more specific address?

Sincerely yours,

William F. Friedman
