EO 3.3(h)(2)
PL 86-36/50 USC 3605SECTION I - SUPERSESSION

This Annex supersedes Annex A to NSA Operations Order Number 302 dated 2 August 1954, which may be destroyed in accordance with existing regulations.

SECTION II - DEFINITION

For the purposes of this Annex, the [REDACTED] Operational Air COMINT Entity is defined as comprising, (1) the "All National Net", [REDACTED] (2) all air-to-ground unit nets [REDACTED], and (3) all ground-to-ground flight service nets [REDACTED]. All tasks and responsibilities set forth in this Annex apply only to the [REDACTED]
[REDACTED] COMINT Entity.

SPECIAL HANDLING REQUIRED
NOT RELEASEABLE TO FOREIGN NATIONALS

The Information contained in this document will not be disclosed to foreign nationals or their representatives

NSA OPERATIONS ORDER ANNEX 302-1

6 April 1955

SECTION III - INTERCEPT CONTROL

1. The 6920th Security Wing has full intercept control responsibility for the positions allocated to the [REDACTED] COMINT Entity (except for the flight service nets) and designated as category C positions in accordance with NSA Circular 51-10. The positions allocated to cover the ground-to-ground flight service nets are designated as Category J positions.
2. The 6920th Security Wing will forward, by bag, a monthly recapitulation of intercept assignments to NSA as soon as possible after the end of each month.
3. NSA is responsible for changes in the number of [REDACTED] positions assigned to each category as outlined in NSA Circular 51-10.

PL 86-36/50 USC 3605
EO 3.3(h)(2)

SECTION IV - TEXTA

1. The 6920th Security Wing is the source for the production of official TEXTA in accordance with procedures outlined in the current TEXTA handbook, for all elements of the [REDACTED] COMINT Entity referred to in Section II (except for the Central/South China area, for which [REDACTED] is the official TEXTA source) and is responsible for the necessary timely dissemination of official TEXTA originated by them.
2. TEXIN developed at NSA, [REDACTED] and subordinate units of the 6920th Security Wing is to be forwarded to the 6920th Security Wing. The 6920th Security Wing is responsible for assimilation, or comment when TEXIN details are not acceptable.
3. For those areas for which [REDACTED] is the source for the production of official TEXTA, the 6920th Security Wing will forward TEXIN to [REDACTED] for review and comment as necessary.

NSA OPERATIONS ORDER ANNEX 302-1

6 April 1955

SECTION V - TRAFFIC ANALYTIC RESPONSIBILITIES

1. The 6920th Security Wing is responsible for full scale T/A effort on a seven-day week basis for all elements of the [redacted] referred to in Section II to fulfil the responsibility for daily and short-term reporting. This effort shall, as a basic minimum, include integrated processing at one location of all available materials from all portions of this entity in order to accomplish necessary fusion.
2. NSA will conduct T/A as necessary for technical control and technical support purposes and as a part of the NSA responsibility for conduct of long-term studies.

SECTION VI - CRYPTANALYTIC RESPONSIBILITIES

1. NSA is responsible for the determination of those cryptographic systems to be processed by the 6920th Security Wing. Normally, NSA will assign to the 6920th Security Wing those systems falling in States of Solution 3 through 5 (reference NSA Circular 52-17).

2. Under this State of Solution arrangement, the following systems will be the responsibility of the 6920th Security Wing:

(None at present)

EO 3.3(h)(2)
PL 86-36/50 USC 3605

3. When it has been determined that a system has reached State of Solution 3, responsibility for the system will normally be transferred to the 6920th Security Wing. This transfer will be effected through technical channels. NSA will notify [redacted] of all such transfers.

4. 6920th Security Wing will notify NSA by message with appropriate precedence, of all changes in encipherment. When a new system appears, or an existing system changes to State of Solution 2 or below (initially determined by the 6920th Security Wing) and it cannot be solved within 72 hours, the 6920th Security Wing will immediately begin forwarding the raw traffic to NSA by electrical means with routine precedence. NSA will advise the 6920th Security Wing when this electrical forwarding will cease.

6 April 1955

5. If there should be any question as to whether a system is in State of Solution 2 or below, the 6920th Security Wing will adhere to the traffic forwarding procedure outlined in Paragraph 4 until the question is resolved.

6. Temporary UKUSA system short titles will be assigned and forwarded to NSA in accordance with NSA Circular 52-1.

7. The 6920th Security Wing is responsible for submitting Monthly Cryptanalytic Status Reports (NSA Circular 52-17) recapitulating the status of all systems which have been assigned to it. NSA will issue status reports as necessary on systems in States of Solution 0, 1 and 2.

8. In addition to the monthly cryptanalytic status report required by NSA Circular 52-17, the 6920th Security Wing will prepare a separate C/A System Recap report at least once each calendar quarter on each system for which it is responsible. These reports will contain a complete description of the entire system as follows:

a. Introduction

Narrative description of system's use.

b. Summary

Narration of history of the system.

c. Details

Description of cryptographic details of the system.

d. Appendices

(1) Appendix A - Present a master list of code recoveries with validities.

(2) Appendix B - Recap all code and cipher recoveries, including keys, strips, starting points, substitution tables, etc.

SECTION VII - TRANSLATION RESPONSIBILITIES

1. The 6920th Security Wing is responsible for publication of significant translations. This responsibility includes review and re-publication, as necessary, of all significant, unique, translations falling within this COMINT ability.
2. All translations will be published by the 6920th Security Wing using the NSA Bulletin Format.
3. NSA will review the translations made by the 6920th Security Wing for technical control and technical support purposes.

SECTION VIII - REPORTING RESPONSIBILITIES

1. Technical Reports

- a. The 6920th Security Wing is responsible for timely technical reporting as necessary including the preparation of the following:
 - (1) Official TEXTA and comments on TEXIN received at the 6920th Security Wing.
 - (2) Weekly Traffic Analysis Summary (Weekly TASUM). See Appendix A.
 - (3) Monthly Recapitulation of Intercept Assignments.
 - (4) Monthly Cryptanalytic Status Report.
 - (5) Cryptanalytic recoveries.
 - (6) C/A System Recap Reports.
 - (7) Such additional technical reports as may be required by NSA Circular (50-series) or which are derived from the normal analysis activity of the station.

b. Where the 6920th Security Wing requires semi-processed material from its subordinate units, NSA, upon specific request, will be provided with information copies of such material. The 6920th Security Wing will inform NSA of the means employed to collect such material.

c. NSA is responsible for technical reports which result from long-term studies conducted at NSA and those studies involving fusion of technical material from this problem with material from other non-decentralized problems. The 6920th Security Wing will be an addressee on these reports.

d. In the event the 6920th Security Wing possesses the capability for production of any long-term technical studies on [redacted] NSA will be informed in advance of full details of purpose, scope etc. of the contemplated study.

2. End-Product Reports

PL 86-36/50 USC 3605
EO 3.3(h)(2)

a. The 6920th Security Wing is responsible for producing the following end-product reports on the [redacted]
Problem:

- (1) Translations
- (2) Daily [redacted]
- (3) Monthly Multiplace and Fighter Activity Report. Detailed instructions for preparing this report will be forwarded through technical channels.
- (4) Spot reports as necessary.
- (5) "Wrap-up" reports. These reports are to be similar to the NSA O/CC-A series, and will be distributed to interested consumers (see Section XI) in hard copy form; however, the more significant reports are also to be issued in gisted form and transmitted electrically to interested consumers. The gist does not replace the hard copy, which will be distributed.

b. NSA is responsible for end-product reports which are produced as a result of long-term studies and those studies involving fusion of this problem with other non-decentralized COMINT Entities. NSA will be informed in advance of full details of purpose, scope, etc., of the contemplated study. Any long-term end-product reports produced by the 620th Security Wing on the [redacted] Problem will be passed to NSA for review and publication.

SECTION IX - SOURCES OF TECHNICAL SUPPORT

1. The 6920th Security Wing is responsible for technical support to subordinate units.
2. NSA is responsible for technical support to the 6920th Security Wing and its subordinate units.

SECTION X - LIAISON

The liaison channel with [redacted] on routine matters pertaining to the problem decentralized by terms of this annex will be 6920th Security Wing to SUSLO [redacted] (info: NSA, NSAFE, and NSAPAC). The liaison channel on non-routine matters will be 6920th Security Wing to NSA (info: SUSLO [redacted], NSAFE, and NSAPAC).

SECTION XI - DISTRIBUTION

1. Technical Reports - Technical reports are to be distributed to the organizations listed by the means indicated.

a. Official TEXIN - by electrical means to:

- (1) NSA PL 86-36/50 USC 3605
- (2) [redacted] EO 3.3(h)(2)
- (3) Subordinate units of the 6920th Security Wing, as appropriate.

- b. TEXIN - The 6920th Security Wing will forward comments on [redacted] means considered appropriate, to the organization submitting the TEXIN (info: all other information addressees of the TEXIN).

- c. Weekly TASUM - by courier to NSA and . NSA will forward three copies to by bag.
- d. Monthly Recapitulation of Intercept Assignments - eight copies by bag to NSA.
- e. Monthly Cryptanalytic Status Reports - in accordance with NSA Circular 52-17.
- f. C/A System Recap Reports - by bag to NSA, (3 copies), and (2 copies)
- g. Cryptanalytic recoveries as available - by electrical means to NSA and

2. End-product reports will be distributed automatically to Air Force recipients in accordance with Section V, paragraph 9 of NSA Operations Order No. 302. Distribution to non-Air Force recipients will be as follows:

- a. Translations - by electrical means to:

(1) NSA

(2)

(3)

(4)

(5) USN-27

(6)

PL 86-36/50 USC 3605

EO 3.3(h)(2)

- b. Daily - by electrical means to:

2. Any future NSA requirements will be initiated through technical channels by specific request.

3. In general, cryptanalytic IBM processing on the [redacted]
[redacted] Problem at the 6920th Security Wing will be restricted to the systems assigned under the provisions of Section VI.

4. NSA will retain responsibility for machine support on long term studies and all special requirements of NSA and the 6920th Security Wing. This support includes technical advice and machine processing.

SECTION XIII - TRAFFIC FORWARDING

The 6920th Security Wing is to forward copies of all intercepted traffic to NSA in accordance with the NSA Traffic Forwarding Directive.
