30 March 1955

Dear Boris:

Upon my return from Europe last Friday afternoon I found your letter of 18 March swaiting me, as you indicated I would when I phoned you from Frankfurt on Thursday, 24 March, to say good-bye.

This will be a very short note to tell you that I had a very pleasant trip home by air and found my family all well. This letter will also serve merely to acknowledge receipt of your letter and to tell you that in a very short time I hope to be in a position to give a definitive answer on the contents thereof.

get it straight.

In a separate letter to Bo I am straightening out our orders for the C-52 and CX-52 machines we are buying; also I am making certain inquiries about the TC-52 machines we ordered.

I telephone Art Conradi to convey greatings from you and Annie to Ingrid, little Annie and him. He was most appreciative of my call and sends greatings in return. They are all well.

A couple of days ago I received a latter from the Regency Company asking me to fill out a questionnaire about the transistorized radio and telling me that in return they would send me a battery free of charge. I will be glad to do so and will send you the battery when it comes. How is the radio working, by the way?

I hope that your holiday in Portugal and Spain turned out to be extremely pleasurable as well as restTul. It is probable that your recent visit to Stockholm was a difficult experience for you; also, from your card written upon your return to Zug I was very sorry to learn of your illness which prevented your assisting at the furneral services for your father. Curiously, that happened to me, too, in 1937 when my father passed away, so I know how you felt.

Once more I will reiterate my thanks for many courtesies extended me on my recent visit to Svitzerland, for the detailed and interesting information I obtained at first hand about your business, including plans for the future, and for your very helpful understanding of certain of our problems of mutual interest. You will hear from me soon again on these matters.

With affectionate regards to Annie and you from both Elizabeth and myself, I am, Sincerely,
