MEMORANDUM FOR RECORD:

This morning I turned over to Mr. Arthur Freedman, Office of Training, NSA, the voice recording of Lectures 1, 2 and 3, together with an original and one carbon copy of the manuscript for each of these. The manuscript was also accompanied by negatives for the illustrations.

It was agreed that this material is not being handed in as a final product but as an interim product to be gone over and edited after my return from Yucatan.

Mr. Freedman seemed to be anxious to have the material and it was for this reason that I agreed to let him have it at this time.
