COMMENT NO. 1

1. PRODUCTION

Advised that PROD is experiencing difficulty authorizing, because of its questionable legality, the destruction of raw traffic and other classified materials. Stated that PROD would continue to operate on the same basis that they have in the past but emphasized the urgent need for a directive on this problem.

2. PLANS AND POLICY

Reported that the Long Range Communications Security Equipment Plan would be ready on 29 January 1954.

3. TRAINING

Stated that TNG is now operating on the Second floor of Building 1, and that it will probably be ten days before their telephone communications are completely installed.

4. HEADQUARTERS COMMANDANT

a. Reported the transfer of \$18,000 in funds to AHS to provide for the construction of a power sub-station, with a 2400 KVA capacity, to increase the power distribution to A and B Buildings.

b. Remarked that the specifications for the alteration of buildings at VHFS have been received and that \$15,000 has been requested as an advance to initiate the contract immediately. Additional funds will be provided when firm estimates have been received from CO, AHS, on the total cost.
