Classifica of SAB Personnel for MA 723 Exclusion Area

20: MA-723

FROM: S/MSST (Mr. Priedman) Sh Jame 54

Comment No. 2 60493/ean

- 1. Since, as a general rule, seither the members of the MBA Scientific Advisory Sound nor any other consultants, experts, or advisors serving MBA ruguire regular access to the Exclusion area of Booms 2058-2066, B Bailding, AME, it is recommended that all of them be considered "inactive" as far as access to those areas is concerned.
- 8. Sees of the numbers of the Board as well as other consultants may have a need to enter those areas in the future. Past experience indicates that it is unlikely that any such consultant would attempt to gain entry to see Exclusion Area without first clearing it with a responsible MSA official.
- 3. It is recommended that MEA-70 initiate a metice to the MEA activities that the agency official who requests the service of any consultant who may mad to visit the Exclusion Area is responsible for making the secessary serroments with MEA-70 at least a day is advance of each proposed visit. In this way it is felt that the principle of "the meed to know" will be upheld, that MEA-70 will have sufficient time to make any checks pacessary, and that any possibility of embarrassment to the consultant will be avoided.

William F. Priesmas Special Assistant
